

Albemarle Estate

AT TRUMP WINERY

Albemarle Estate at Trump Winery offers guests the opportunity to stay at one of the most prestigious and architecturally significant residences in US history. Experience our luxurious wine country estate surrounded by vineyards and beautiful countryside, world class accommodations, and classic Trump quality and service at Virginia's largest vineyard.

Designed by world famous architect David Easton, the 26,000 square foot 45 room mansion has been called "one of America's true treasures." Reminiscent of a classic Georgian-style home, Albemarle Estate at Trump Winery epitomizes high-style country living in the tradition of the English country manor.

The mansion features one breathtaking room after another with details that will amaze. The dining room, with twenty foot ceilings, antique English rococo mantle with ornate gilding, hand carved plaster ceiling, and hand painted wallpaper is a spectacular place to enjoy breakfast served daily. The library, crafted from 150+ year old English oak will transport you to an English manor. With a large screen TV, surround sound, pool table, and bar, this is a great meeting place for an afternoon drink and to catch the game.

Complementing the high-style of the mansion are exquisitely manicured English gardens, designed by one of Britain's most highly acclaimed landscape architects, George Carter, together with Lady Xa Tollemache.
