
Preferred Vendors - Policy

The process of selecting vendors can seem overwhelming as you begin to plan your event. At Trump Winery, we provide a fully vetted Preferred Vendor List to help you along the way. There are many amazing wedding vendors to choose from, and we are confident that your perfect fit will be found. There are a few guidelines and policies that must be met as you begin to choose your vendors, so please do not hesitate to contact the Event Manager with questions as they arise.

We require the use of a caterer from our Preferred Vendor List. Caterers not on the list would not be approved to work at the winery. We also require the use of a professional event planner for “day-of” coordination services. For any of the event categories, other than the caterer, we highly recommend choosing from the preferred list as they are the most familiar with our venues and we can stand behind their quality and service.

If you choose to select a vendor that is not on our Preferred Vendor List, you must submit the vendor to the Event Manager for approval before a contract is signed for their services. It is extremely rare that a third-party vendor is not approved, but we want to ensure they agree to our vendor policies before you engage with them in a contract. All vendors who are hired for your event must have a signed vendor waiver and vendor agreement on file. These documents will be provided to you upon signing.

In addition, Winery-approved third-party vendors must carry insurance coverage listing the Winery as an additional insured, and should include general liability, workers compensation, and may include automobile liability.

We look forward to working with you and your vendors through the planning process.
